Power Solutions International Announces Annual Meeting

WOOD DALE, Ill., Aug. 16, 2012 (GLOBE NEWSWIRE) -- Power Solutions International, Inc. (OTCBB:PSIX), a leader in the design, engineering and manufacture of emissions-certified alternative-fuel and conventional power systems, announced today that it will hold its annual meeting of stockholders at 10:00 a.m. Central Time on Wednesday, August 29, 2012, at the offices of Power Solutions International, Inc., 201 Mittel Drive, Wood Dale, Illinois 60191. Stockholders who hold Power Solutions International stock as of the close of business on July 25, 2012 and those who hold a valid proxy for the annual meeting are entitled to attend in person. Stockholders who hold stock through a broker, bank, trust, or other holder of record and who wish to attend the annual meeting should arrive with proof of beneficial ownership as of the record date, such as their most recent account statement prior to July 25, 2012, a copy of the voting instruction card provided by their broker, bank, trust, or other holder of record, or similar evidence of ownership.

Additional information, including details of the business to be conducted at the annual meeting, is included in the Company's Notice of Annual Meeting and Proxy Statement, which has been filed with the Securities and Exchange Commission. The proxy statement may be accessed through the Company's website at <http://www.powersint.com/proxy>.

About Power Solutions International, Inc.

Power Solutions International, Inc. (PSI) is a leader in the design, engineering and manufacture of emissions-certified, alternative-fuel power systems. PSI provides integrated turnkey solutions to leading global original equipment manufacturers in the industrial, off- and on-road markets. The company's unique in-house design, prototyping, engineering and testing capacities allows PSI to customize clean, high-performance engines that run on a wide variety of fuels including natural gas, propane, biogas, diesel, gasoline, or hybrid systems.

PSI develops and delivers complete .97 to 22 liter power systems, including the new 8.8 liter engine aimed at the industrial and on-highway markets including; medium duty fleets, delivery trucks, school buses and garbage/refuse trucks. PSI power systems are currently used worldwide in power generators, forklifts, aerial lifts, and industrial sweepers, as well as in oil and gas, aircraft ground support, agricultural and construction equipment.
