Power Solutions International to Present at Upcoming Investor Conferences

WOOD DALE, Ill., March 5, 2015 (GLOBE NEWSWIRE) -- Power Solutions International, Inc. (Nasdaq:PSIX), a leader in the design, engineering and manufacture of emissions-certified, alternative-fuel and conventional power systems, today announced that the Company will present at the following investor conferences during the month of March:

- On Tuesday, March 10, 2015, at 9:30 AM PT, PSI Chairman and Chief Executive Officer Gary Winemaster and Chief Financial Officer Daniel Gorey will present at the 27th Annual ROTH Conference, to be held at the Ritz-Carlton, Laguna Niguel in Dana Point, CA. Attendance at the conference is by invitation only for clients of ROTH Capital Partners, but a simultaneous live webcast of the presentation will be available on the Investor Relations section of the Company's website at www.psiengines.com. The webcast will be archived on the Company's website for 90 days. Please contact your ROTH representative for conference registration information and to schedule a meeting with the Company.
- On Monday, March 16, 2015, Mr. Gorey will host investor meetings at the GHS 1x1 Series - Annual Industrial Tech & Equipment Conference, to be held at the Le Méridien Hotel in San Francisco, CA. Attendance at the conference is by invitation only for clients of Global Hunter Securities. Please contact your GHS representative for conference registration information and to schedule a meeting with the Company.
- On Wednesday, March 18, 2015, Mr. Gorey will host investor meetings at the Northland Capital Markets 2015 Growth Conference, to be held at the Omni Berkshire Place Hotel in New York, NY. Attendance at the conference is by invitation only for clients of Northland Capital Markets. Please contact your Northland representative for conference registration information and to schedule a meeting with the Company.

About Power Solutions International, Inc.

Power Solutions International, Inc. (PSI) is a leader in the design, engineering and manufacture of emissions-certified, alternative-fuel power systems. PSI provides integrated turnkey solutions to leading global original equipment manufacturers in the industrial and on-road markets. The Company's unique in-house design, prototyping, engineering and testing capacities allows PSI to customize clean, high-performance engines that run on a wide variety of fuels, including natural gas, propane, biogas, diesel and gasoline.

PSI develops and delivers complete .97 to 22 liter power systems, including the 8.8 liter engine aimed at the industrial and on-road markets, including medium duty fleets, delivery trucks, school buses and garbage/refuse trucks. PSI power systems are currently used worldwide in power generators, forklifts, aerial lifts, and industrial sweepers, as well as in oil and gas, aircraft ground support, agricultural and construction equipment.

PSI recently acquired 3PI, a leading designer and manufacturer of large, custom engineered integrated electrical power generation systems serving the global diesel and natural gas power generation market. 3PI specializes in power generation systems for both standby and prime power applications.
