Power Solutions International to Present at Upcoming Investor Conferences

WOOD DALE, Ill., Aug. 27, 2014 (GLOBE NEWSWIRE) -- Power Solutions International, Inc. (Nasdaq:PSIX), a leader in the design, engineering and manufacture of emissions-certified, alternative-fuel and conventional power systems, today announced that the Company will present at the following investor conferences during the month of September:

- On Thursday, September 4, 2014, PSI Chief Financial Officer Daniel Gorey will host investor meetings at the 7th Annual Barrington Research Fall Investment Conference, to be held at the Four Seasons Hotel in Chicago, IL. Attendance at the conference is by invitation only for clients of Barrington Research. Please contact your Barrington representative for conference registration information and to schedule a meeting with the Company.
- On Wednesday, September 17, 2014, Mr. Gorey will present at the 5th Annual Credit Suisse Small & Mid Cap Conference, to be held at 9:30AM ET at The Waldorf Astoria in New York, NY. Attendance at the conference is by invitation only for clients of Credit Suisse. Please contact your Credit Suisse representative for conference registration information and to schedule a meeting with the Company.
- On Thursday, September 18, 2014, Mr. Gorey will host investor meetings at the GHS 1x1 Series NYC Industrials Conference, to be held at the Millennium Broadway Hotel in New York, NY. Attendance at the conference is by invitation only for clients of Global Hunter Securities. Please contact your GHS representative for conference registration information and to schedule a meeting with the Company.

About Power Solutions International, Inc.

Power Solutions International, Inc. (PSI) is a leader in the design, engineering and manufacture of emissions-certified, alternative-fuel power systems. PSI provides integrated turnkey solutions to leading global original equipment manufacturers in the industrial and on-road markets. The Company's unique in-house design, prototyping, engineering and testing capacities allows PSI to customize clean, high-performance engines that run on a wide variety of fuels, including natural gas, propane, biogas, diesel and gasoline.

PSI develops and delivers complete .97 to 22 liter power systems, including the 8.8 liter engine aimed at the industrial and on-road markets, including medium duty fleets, delivery trucks, school buses and garbage/refuse trucks. PSI power systems are currently used worldwide in power generators, forklifts, aerial lifts, and industrial sweepers, as well as in oil and gas, aircraft ground support, agricultural and construction equipment.

PSI recently acquired Professional Power Products, Inc. (PPPI), a leading designer and manufacturer of large, custom engineered integrated electrical power generation systems serving the global diesel and natural gas power generation market. PPPI specializes in power generation systems for both standby and prime power applications.
