About Power Solutions International

Power Solutions International, Inc. (OTC-BB: PSIX.OB) is a leader in the design, engineering and manufacture of emissions-certified alternative-fuel and conventional power systems. PSI can provide integrated turnkey solutions to leading global original equipment manufacturers in the industrial, off-road and on-road markets. The Company's unique in-house design, prototyping, engineering and testing capacities enable the customized production of clean, high-performance engines that run on a wide variety of fuels, including natural gas, propane, biogas, diesel, gasoline, or hybrid systems. The Company also has hardware and proprietary software that integrates hybridization to further expand alternative fuel engine options.

PSI develops and delivers complete .97 to 22 liter power systems, including a new 8.8 liter engine aimed at the on-highway market. PSI power systems are used worldwide in power generators, forklifts, aerial lifts, industrial sweepers, as well as in equipment for oil and gas production, aircraft ground support, agriculture, and construction. The new 8.8 liter system will be marketed to medium duty fleets, delivery trucks, school buses, and the garbage and waste truck segments.
