Third Quarter 2013

CAUTIONARY NOTES

This presentation has been prepared by Power Solutions International, Inc. (PSI) for investors, solely for informational purposes. The information contained in this presentation does not purport to be all-inclusive or to contain all of the information a prospective or existing investor may desire. All of the financial information and other information regarding PSI contained in this presentation (including any oral statements transmitted to the recipients of this presentation) is qualified in its entirety by PSI's filings with the Securities and Exchange Commission (SEC), including the financial statements and other financial disclosure contained in those filings. PSI makes no representation or warranty as to the accuracy or completeness of the information contained in this presentation (including any oral statements transmitted to the recipients of this presentation).

This presentation (including any oral statements transmitted to the recipients of this presentation) contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, including statements regarding PSI's current expectations about its future operating results, prospects and opportunities. PSI has tried to identify these forward looking statements by using words such as "expect," "anticipate," "estimate," "plan," "will," "would," "should," "believe" or similar expressions, but these words are not the exclusive means for identifying such statements. PSI cautions that a number of risks, uncertainties and other important factors could cause PSI's actual results, prospects and opportunities to differ materially from those expressed in, or implied by, the forward-looking statements, including, without limitation, the development of the market for alternative-fuel systems, technological and other risks relating to PSI's development of its new 8.8 liter engine, introduction of other new products and entry into on-road markets (including the risk that these initiatives may not be successful), changes in environmental and regulatory policies, significant competition, PSI's dependence on key suppliers and general economic conditions. For a detailed discussion of factors that could affect PSI's future operating results, prospects and opportunities, please see PSI's Form 10-K for the year ended December 31, 2012, as filed with the SEC, and PSI's other SEC filings, including the disclosures under "Risk Factors" and "Cautionary Note Regarding Forward-Looking Statements" in the SEC filings. You should not place undue reliance on any forward-looking statements. Except as expressly required by the federal securities laws, PSI undertakes no obligation to update or revise any forward-looking statements, whether as a result of new information, changed circumstances or future events or for any other reason.

COMPANY SNAPSHOT

MARKETS

Alternative-fuel powertrains for industrial and on-highway applications.

POSITIONING

The leading cleantech engine manufacturer in the world.

OPPORTUNITY

Expansion in industrial and on-highway growth markets to capitalize on the global shift to alternative fuels.

WHAT WE DO

WE POWER PRODUCTIVITY

Our systems power homes, lift containers, move dirt, chip trees, pump oil—and more.

WHAT WE DO

STRENGTHS

CUSTOMER-FOCUSED PRODUCT LEADERSHIP

Several strengths combine to set us apart from competitors.

STRENGTHS

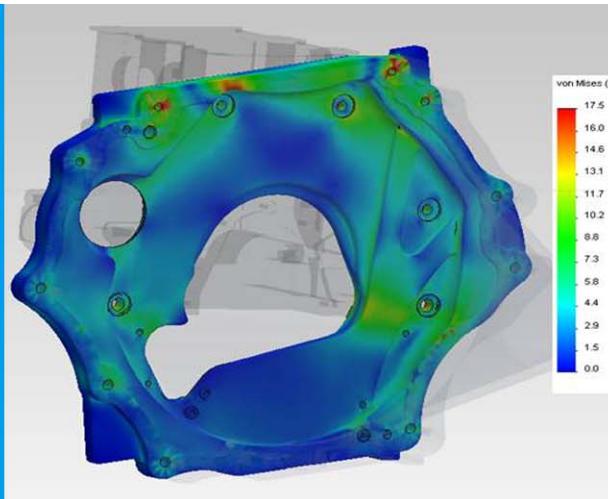

GLOBAL MANUFACTURING, DESIGN & SERVICE

State-of-the-art facilities incorporate lean manufacturing and stringent quality controls to deliver solutions at a low cost, on-time and on-spec.

STRENGTHS

- Advanced engineering, rapid prototyping and in-house test facilities enable OEMs to completely outsource engine development to PSI
- Joint venture with MAT in China to expand PSI power systems in Asian market
- Proprietary components drive strong **high-margin sales**—aftermarket parts sales represent consistent, growing revenue stream of roughly 10% of total revenue

MARKET TRENDS

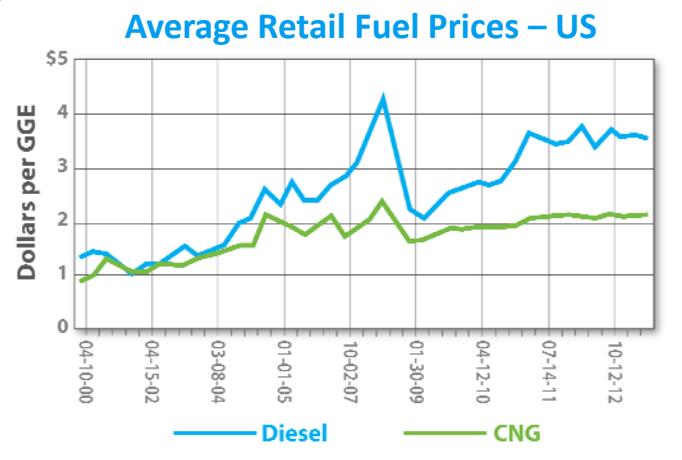

FAVORABLE MARKET TRENDS

Fuel trends and energy policy are shifting in favor of alt-fuel engines.

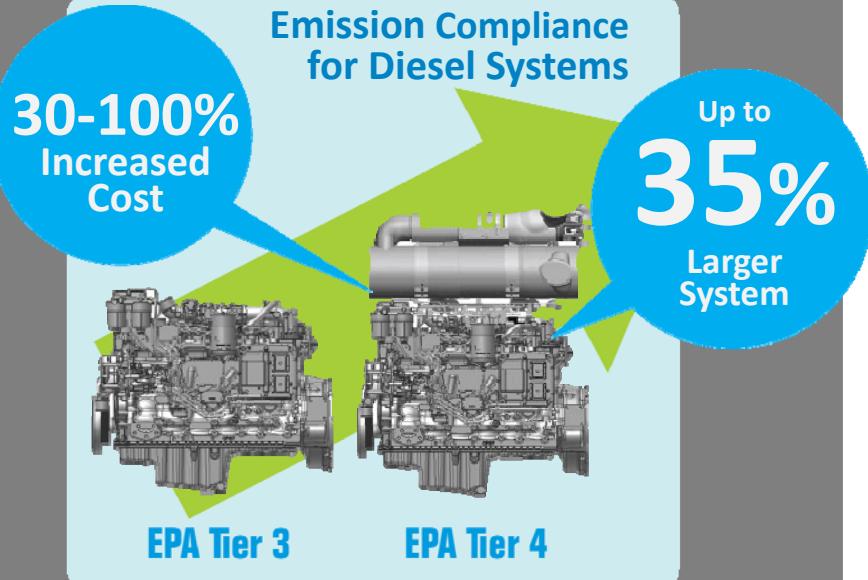

MARKET TRENDS

ALT-FUEL BENEFITS

- Low, stable cost & abundant domestic supply of natural gas
- Subsidies, tax credits and grants for alternative fuels and green fleets
- Promotion of domestic energy independence

EMISSION COMPLIANCE

- Compliance with diesel emission regulation increases costs & complexity
- Growing litigation against diesel

GLOBAL SHIFT TO ALTERNATIVE-FUEL FLEETS

FedEx CEO: Truck Fleets to Shift to Natural Gas From Diesel

Wall Street Journal

"Coca-Cola is committed to investing in alternative fuel vehicles and innovative fleet technologies."

— Steven Saltzgiver, Director of Fleet Operations, Coca-Cola Refreshments

"In 2012, natural gas vehicles will represent 80 percent of our annual new truck purchases and continue for the next five years."

— Eric Woods, VP of Fleet & Logistics, Waste Management

"The alternative-fuel space is dynamic and we're positioning our green fleet to grow and evolve along with technological advancements."

— Brian Heldebrandt, Verizon Fleet Strategy Program Manager

"UPS set a new alternative fuel goal. By 2017, we will reach one billion miles driven by alternative fuel/advanced technology vehicles – more than double the previous 400 million mile goal."

— David Abney, UPS Chief Operating Officer

GROWTH INITIATIVES

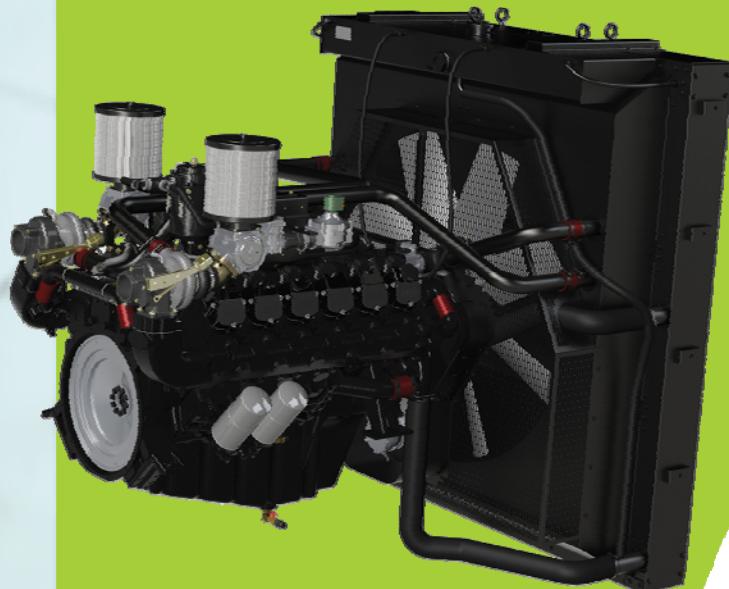

PSI HEAVY-DUTY ENGINES

PSI created the Heavy-Duty line in 2008 to target a need in industrial markets for large, certified alternative-fuel engines.

PSI Heavy-Duty

PSI HEAVY-DUTY EXPANSION

PSI is extending the HD line to the 61-Liter/1 MW range to target the power generation, oil & gas, and fracking markets.

FORKLIFT MARKET EXPANSION

Increasing sales in the large Asian forklift market with a low-cost, high-performance engine line backed by an exclusive supply agreement.

- Joint venture with MAT in China to expand with existing forklift OEMs.

POWERING A GREENER FUTURE

New systems to deliver packages, tow cars, haul trash and transport people.

- Internally designed and manufactured 8.8-Liter fuel flexible engine
- Multi-year supply agreement with GM for 4.8-Liter & 6.0-Liter alternative-fuel engines

NATURAL GAS VEHICLE MARKET—CHINA

GROWTH INITIATIVES

Sources: International Association for Natural Gas Vehicles; ClimateWire

The slide features three distinct sections, each highlighting a different type of natural gas vehicle used in China, accompanied by images of the vehicles and logos of the manufacturers.

- CITY BUSES:** This section shows a blue city bus. Logos for three manufacturers are displayed: YUTONG (blue arrow logo), HIGER (red and white logo), and KING LONG (blue and white logo).
- WORK TRUCKS:** This section shows a blue dump truck. Logos for four manufacturers are displayed: DFM (red and white logo), FOTON (white and black logo), JAC MOTORS (red and white logo), and JAC (black and white logo).
- REFUSE TRUCKS:** This section shows a yellow garbage truck. Logos for four manufacturers are displayed: SINOTRUK (blue and white logo), ZOOMLION (black and white logo), and YDTEX (red and white logo).

FINANCIALS

PSI FINANCIAL SUMMARY

Strong revenue and profit growth during 2012.

INVESTMENT HIGHLIGHTS

FINANCIALS

COMPETITIVE ADVANTAGES

Market-driven design & development, state-of-the-art manufacturing, and unparalleled aftermarket support deliver cost savings and convenience to OEMs

FAVORABLE MARKET TRENDS

Trends in governmental policy and fuel markets are driving demand for alternatively-fueled engines

EXPANDED MARKET PENETRATION

Expansion of forklift engine sales with new products and Asian facilities, extension of Heavy-Duty engine line

NEW PRODUCT PIPELINE

Product launches in large power generation and on-highway cleantech growth markets: bus, delivery truck, city fleet and RV

CONTINUING REVENUE GROWTH

2012 Sales of \$202M, up 31% over 2011,
2012 Net Income of \$6.7M, up 65% over 2011

RECONCILIATION OF NET INCOME & EPS

Fiscal Year Ended				Three Months Ended June 30	
(Dollar amounts in thousands, except per share amounts)	2012	2011	2010	2013	2012
Reconciliation of net income (loss) to adjusted net income:					
Net Income (Loss)	\$6,702	\$4,061	\$1,569	(\$2,100)	\$2,961
Non-cash expense (income) from warrant revaluation	448	382	-	4,207	(1,050)
Facility relocation and debt extinguishment costs	305	-	-	162	-
Adjusted net income	\$7,455	\$4,443	\$1,569	\$2,269	\$1,911
Reconciliation of diluted EPS to adjusted diluted EPS:					
Diluted earnings (loss) per common share	\$0.74	\$0.44	\$0.19	(\$0.23)	\$0.33
Non-cash expense (income) from warrant revaluation	0.04	0.04	-	0.44	(0.12)
Facility relocation and debt extinguishment costs	0.03	-	-	0.02	-
Adjusted diluted earnings per common share	\$0.81	\$0.48	\$0.19	\$0.23	\$0.21

The Company believes supplementing its consolidated financial statements presented in accordance with GAAP with non-GAAP measures provides investors with useful information regarding the Company's short-term and long-term trends. Adjusted net income and adjusted diluted earnings per common share are derived from GAAP results by excluding the non-cash impact related to the change in the estimated fair value of the liability associated with the warrants issued in the Company's April 2011 private placement. The Company excludes this non-operating, non-cash impact, as the Company believes it is not indicative of its core operating results or future performance. The warrant revaluation results from facts and circumstances that fluctuate in impact and is excluded by management in its forecast and evaluation of the Company's operational performance. Adjusted net income and adjusted diluted earnings per common share also exclude debt extinguishment costs and costs incurred in connection with the Company's relocation of production, warehousing and administrative offices into new facilities. The Company excludes these costs because the Company believes that they, similar to the warrants, are not indicative of the Company's core operating results or future performance and are excluded by management in its forecast and evaluation of the Company's operational performance.

Adjusted net income, adjusted diluted earnings per common share and other non-GAAP financial measures used and presented by the Company may be calculated differently from, and therefore may not be comparable to, similarly titled measures used by other companies. Investors should consider non-GAAP measures in addition to, and not as a substitute for, or as superior to, financial performance measures prepared in accordance with GAAP.
