

Power Solutions International (PSI) engines featured at World Ag Show

February 13, 2024

Husker Power Products and Amarillo Wind Machines spotlighting engines during the show, scheduled from February 13 to February 15 in Tulare, Calif.

WOOD DALE, Ill., Feb. 13, 2024 (GLOBE NEWSWIRE) -- Power Solutions International, Inc. (the "Company" or "PSI") (OTC Pink: PSIX), a leader in the design, engineering and manufacture of emission-certified engines and power systems, is excited to announce it will feature products during the World Ag Show, scheduled February 13 to February 15 in Tulare, Calif.

Husker Power Products, a custom power product integrator, will display several products featuring our 5.7L, 6.7L NA, 6.7LT, 10LT, 13LT and 20L engines in its booth, located in H35 in the North Exhibit area of Tulare's International Agri-Center.

Amarillo Wind Machine, a manufacturer of high-quality wind machines globally, will debut PSI's 5.7-liter stationary industrial engine in one of its machines on display in booths SS57 and SS59 in the South Exhibit area. This is PSI's most recent debut in the wind machine market.

About Power Solutions International, Inc.

Power Solutions International, Inc. (PSI) is a leader in the design, engineering and manufacture of a broad range of advanced, emission-certified engines and power systems. PSI provides integrated turnkey solutions to leading global original equipment manufacturers and end-user customers within the power systems, industrial and transportation end markets. The Company's unique in-house design, prototyping, engineering and testing capabilities allow PSI to customize clean, high-performance engines using a fuel agnostic strategy to run on a wide variety of fuels, including natural gas, propane, gasoline, diesel and biofuels.

PSI develops and delivers complete power systems that are used worldwide in stationary and mobile power generation applications supporting standby, prime, demand response, microgrid, and co-generation power (CHP) applications; and industrial applications that include forklifts, agricultural and turf, arbor care, industrial sweepers, aerial lifts, irrigation pumps, ground support, and construction equipment. In addition, PSI develops and delivers powertrains purpose-built for medium-duty trucks and buses including school and transit buses, work trucks, terminal tractors, and various other vocational vehicles.
