Power Solutions International to Present at Upcoming Investor Conferences

WOOD DALE, Ill., July 30, 2015 (GLOBE NEWSWIRE) -- Power Solutions International, Inc. (Nasdaq:PSIX), a leader in the design, engineering and manufacture of emissions-certified, alternative-fuel and conventional power systems, today announced that the Company will present at the following investor conferences during the month of August:

- On Tuesday, August 4, 2015, at 10:00 AM CT, PSI Chief Operating Officer Eric Cohen will participate in a panel discussion at the Piper Jaffray Technology-Enabled Industrials Symposium, to be held at the Piper Jaffray office in Minneapolis, MN. The panel topic is "Transitioning to Natural Gas as a Transportation Fuel". Attendance at the symposium is by invitation only for clients of Piper Jaffray. Please contact your Piper representative for conference registration information and to schedule a meeting with the Company.
- On Monday, August 10, 2015, at 10:00 AM ET, PSI Chief Financial Officer Daniel Gorey will present at the Jefferies Industrials Conference, to be held at The Grand Hyatt Hotel in New York City, NY. Attendance at the conference is by invitation only for clients of Jefferies, but a simultaneous live webcast of the presentation will be available on the Investor Relations section of the Company's website at www.psiengines.com. The webcast will be archived on the Company's website for 90 days. The Company will also host investor meetings throughout the day at the conference. Please contact your Jefferies representative for conference registration information and to schedule a meeting with the Company.

About Power Solutions International, Inc.

Power Solutions International, Inc. (PSI) is a leader in the design, engineering and manufacture of emissions-certified, alternative-fuel power systems. PSI provides integrated turnkey solutions to leading global original equipment manufacturers in the industrial and on-road markets. The Company's unique in-house design, prototyping, engineering and testing capacities allows PSI to customize clean, high-performance engines that run on a wide variety of fuels, including natural gas, propane, biogas, diesel and gasoline.

PSI develops and delivers complete .97 to 22 liter power systems, including the 8.8 liter engine aimed at the industrial and on-road markets, including medium duty fleets, delivery trucks, school buses and garbage/refuse trucks. PSI power systems are currently used worldwide in power generators, forklifts, aerial lifts, and industrial sweepers, as well as in oil and gas, aircraft ground support, agricultural and construction equipment.

Acquired in April 2014, Professional Power Products (3PI) is a leading designer and manufacturer of large, custom engineered integrated electrical power generation systems serving the global diesel and natural gas power generation market. 3PI specializes in power generation systems for both standby and prime power applications.
