Power Solutions International, Inc. to Announce 2011 Fourth Quarter Earnings

WOOD DALE, Ill., March 20, 2012 (GLOBE NEWSWIRE) -- Power Solutions International, Inc (OTCBB:PSIX) (the "Company") today announced that it will share its financial results for 2011's fourth quarter and full year and provide an outlook for 2012 on a conference call that will begin at 8:30AM ET on Tuesday, March 27, 2012.

The Company will be represented by Chairman and Chief Executive Officer Gary Winemaster, Chief Financial Officer and Chief Operating Officer Thomas Somodi and Senior Vice President - Finance Dan Gorey.

At least ten minutes in advance, participants are asked to dial +1 (888) 401-4669 (+1 (719) 325-2209 toll or international) and enter passcode 5194656. A live webcast of the call will be available on the Company website in the Investor Relations section at <http://powersint.com/>. A replay of the call may be accessed via +1 (877) 870-5176 (+1 (858) 384-5517 toll or international) using the same password as above. An archive of the webcast may be found on the Company's website.

About Power Solutions International

Power Solutions International, Inc. (OTCBB:PSIX) is a leader in the design, engineering and manufacture of emissions-certified alternative-fuel and conventional power systems. PSI can provide integrated turnkey solutions to leading global original equipment manufacturers in the industrial, off-road and on-road markets. The Company's unique in-house design, prototyping, engineering and testing capacities enable the customized production of clean, high-performance engines that run on a wide variety of fuels, including natural gas, propane, biogas, diesel, gasoline, or hybrid systems.

PSI develops and delivers complete .97 to 22 liter power systems, including a new 8.8 liter engine aimed at the on-highway market. PSI power systems are used worldwide in power generators, forklifts, aerial lifts, industrial sweepers, as well as in equipment for oil and gas production, aircraft ground support, agriculture, and construction. The new 8.8 liter system will be marketed to medium duty fleets, delivery trucks, school buses, and the garbage and waste truck segments.
