Power Solutions International to Present at Upcoming Investor Conferences

WOOD DALE, Ill., Dec. 6, 2013 (GLOBE NEWSWIRE) -- Power Solutions International, Inc. (Nasdaq:PSIX), a leader in the design, engineering and manufacture of emissions-certified alternative-fuel and conventional power systems, today announced that the Company will present at the following investor conferences during the month of December:

- On Tuesday, December 10, 2013, PSI Chief Operating Officer Eric Cohen and Chief Financial Officer Daniel Gorey will host investor meetings at the ROTH Industrial Growth Corporate Access Day at "Public Chicago Hotel" in Chicago, Illinois. Attendance at the conference is by invitation only for clients of ROTH Capital. Please contact your ROTH representative for conference registration information and to schedule a meeting with the Company.
- On Wednesday, December 11, 2013, Messrs. Cohen and Gorey will present at the J.P. Morgan SMid Cap Conference at the Westin River North Hotel in Chicago, Illinois at 2:20 PM CST. Attendance at the conference is by invitation only for clients of J.P. Morgan, but a simultaneous live webcast of the presentation will be available on the Investor Relations section of the Company's website at www.psiengines.com. The webcast will be archived on the Company's website for 90 days. Please contact your J.P. Morgan representative for conference registration information and to schedule a meeting with the Company.
- On Tuesday, December 17, 2013, Messrs. Cohen and Gorey will host investor meetings at the Global Hunter Securities' Industrial & Clean Energy Technology Conference at "The Library" in Chicago, Illinois. Attendance at the conference is by invitation only for clients of Global Hunter Securities. Please contact your Global Hunter Securities representative for conference registration information and to schedule a meeting with the Company.

About Power Solutions International, Inc.

Power Solutions International, Inc. (PSI) is a leader in the design, engineering and manufacture of emissions-certified, alternative-fuel power systems. PSI provides integrated turnkey solutions to leading global original equipment manufacturers in the industrial and on-road markets. The company's unique in-house design, prototyping, engineering and testing capacities allows PSI to customize clean, high-performance engines that run on a wide variety of fuels, including natural gas, propane, biogas, diesel and gasoline.

PSI develops and delivers complete .97 to 22 liter power systems, including the new 8.8 liter engine aimed at the industrial and on-road markets, including: medium duty fleets, delivery trucks, school buses and garbage/refuse trucks. PSI power systems are currently used worldwide in power generators, forklifts, aerial lifts, and industrial sweepers, as well as in oil and gas, aircraft ground support, agricultural and construction equipment.
