## Power Solutions International to Present at Upcoming Investor Conferences

WOOD DALE, Ill., Oct. 25, 2013 (GLOBE NEWSWIRE) -- Power Solutions International, Inc. (Nasdaq:PSIX), a leader in the design, engineering and manufacture of emissions-certified alternative-fuel and conventional power systems, today announced that the Company will present at the following investor conferences during the month of November:

- On Monday, November 4, 2013, PSI Chief Operating Officer Eric Cohen and Chief Financial Officer Daniel Gorey will present at Robert W. Baird's 2013 Industrial Conference at the Four Seasons Hotel in Chicago at 3:00 PM CST. Attendance at the conference is by invitation only for clients of Baird, but a simultaneous live webcast of the presentation will be available on the Investor Relations section of the Company's website at [www.psiengines.com](http://www.psiengines.com). The webcast will be archived on the Company's website for 90 days. Please contact your Baird representative for conference registration information and to schedule a meeting with the Company.
- On Tuesday, November 19, 2013, Messrs. Cohen and Gorey will host investor meetings at Piper Jaffray's Technology-Enabled Trucks and Trucking Symposium at the Piper Jaffray office in New York City. Attendance at the conference is by invitation only for clients of Piper Jaffray. Please contact your Piper Jaffray representative for conference registration information and to schedule a meeting with the Company.

### About Power Solutions International, Inc.

Power Solutions International, Inc. (PSI) is a leader in the design, engineering and manufacture of emissions-certified, alternative-fuel power systems. PSI provides integrated turnkey solutions to leading global original equipment manufacturers in the industrial and on-road markets. The company's unique in-house design, prototyping, engineering and testing capacities allows PSI to customize clean, high-performance engines that run on a wide variety of fuels, including natural gas, propane, biogas, diesel and gasoline.

PSI develops and delivers complete .97 to 22 liter power systems, including the new 8.8 liter engine aimed at the industrial and on-road markets, including: medium duty fleets, delivery trucks, school buses and garbage/refuse trucks. PSI power systems are currently used worldwide in power generators, forklifts, aerial lifts, and industrial sweepers, as well as in oil and gas, aircraft ground support, agricultural and construction equipment.
