Power Solutions International to Attend Upcoming Investor Conferences

WOOD DALE, Ill., May 19, 2016 (GLOBE NEWSWIRE) -- Power Solutions International, Inc. (Nasdaq:PSIX), a leader in the design, engineer and manufacture of emissions-certified alternative-fuel and conventional power systems, today announced that the Company will attend the following investor conferences:

- | On Wednesday, May 25, 2016, PSI Chief Financial Officer Michael Lewis will host investor meetings at the 10th Annual Barrington Research Spring Conference, to be held at the Four Seasons Hotel Chicago in Chicago, IL. Attendance at the conference is by invitation only for clients of Barrington Research. Please contact your Barrington Research representative for conference registration information and to schedule a meeting with the Company.
- | On Wednesday, June 1, 2016, PSI Chairman and Chief Executive Officer Gary Winemaster and Chief Financial Officer Michael Lewis will host investor meetings at the 13th Annual Craig-Hallum Institutional Investor Conference to be held at The Depot Renaissance Minneapolis Hotel in Minneapolis, MN. Attendance at the conference is by invitation only for clients of Craig-Hallum Capital Group. Please contact your Craig-Hallum representative for conference registration information and to schedule a meeting with the Company.

About Power Solutions International, Inc.

Power Solutions International, Inc. (PSI or the Company) is a leader in the design, engineer and manufacture of emissions-certified, alternative-fuel power systems. PSI provides integrated turnkey solutions to leading global original equipment manufacturers in the industrial and on-road markets. The Company's unique in-house design, prototyping, engineering and testing capacities allow PSI to customize clean, high-performance engines that run on a wide variety of fuels, including natural gas, propane, biogas, gasoline and diesel.

PSI develops and delivers complete industrial power systems that are used worldwide in stationary and mobile power generation applications supporting standby, prime, and Co-generation power (CHP) applications; mobile industrial applications that include forklifts, aerial lifts, industrial sweepers, aircraft ground support, arbor, agricultural and construction equipment. In addition, PSI develops and delivers power systems purpose built for the Class 3 through Class 7 medium duty trucks and buses for the North American and Asian markets.
